Re: Mixing Metric and English Shingles

To Whom It May Concern:

This is to confirm that GAF no longer manufactures English measurement (36" x 12") architectural shingles.

Additionally, GAF does not recommend mixing Metric and English measurement shingles on the same roof plane, as the shingles are different sizes and will not match each other. Metric shingles have an exposure of 5 5/8" and English shingles have an exposure of 5".

If you have any additional questions, please contact us at 1-800-766-3411.

Sincerely,

Christine Reeves
