Subject: Discontinued Shingle

To Whom It May Concern:

This is to confirm that the GAF Timberline® Prestique® 40 High Definition® shingles have been discontinued and there is no direct replacement shingle available. The Timberline® Ultra High Definition™ shingles would be the closest shingle but will have some color or texture variations due to changes in sourcing of the granules and will have some thickness and weight differences. GAF does not recommend mixing the current GAF shingle with a GAF shingle made earlier.

If you have any further questions, please contact us at 800-766-3411 option 1. Thank you for choosing a GAF roofing system.

Sincerely,

Joe Smith
